

ABOUT US /

Established in 2012, San Marine has emerged to carve itself a niche position in the Indian Marine Industry. In a short period of time, in our transformative journey, we embraced the unique **"BOOT"** approach: Build, Own, Operate, and Trade to our business vision.

This concept has empowered us to extend our valued clients, a single destination for turnkey marine spread and logistic operation asset deployment services and emerge as a leading service provider in the East & West Coast of India.

Build

San Marine specializes in the construction of Customized Marine Fleets meticulously designed to meet and exceed the stringent requirements of the Indian projects, Clients, Class and the Indian Flag. Our vessels are purpose built for diverse clients confirming to the exacting international standards and quality and thereby restricting and minimising risks in service.

Own And Operate

What sets us apart is not just the construction but also the ownership and operation of these fleets in the Indian Waters. This holistic approach grants us full operational control, resulting in superior efficiency and reliability.

Trade

Our comprehensive fleet finds diverse applications, benefiting Exploration & Production Companies, Port Construction Companies, Seismic Survey Companies, Dredging Companies, Foreign Navies, Drilling Rig Companies, and both Indian and International Shipping Companies. San Marine is pitching in to play a pivotal role in the maritime trade landscape.

- Fabrication & Engineering

**“Harbouring
Offshore Excellence”**

What sets us apart is our commitment to go beyond asset provision. We offer complete operational support and assistance to overcome project timelines and exceed performance benchmark of the clients.

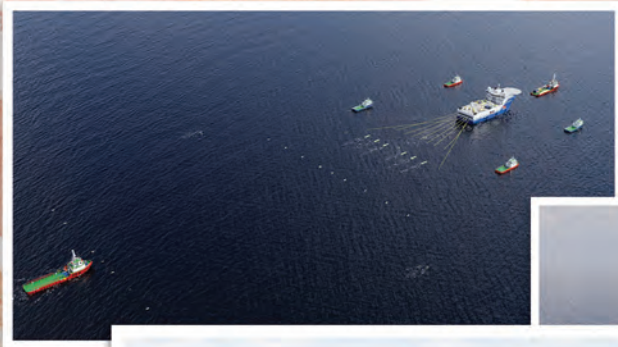

SEISMIC SURVEY SUPPORT SERVICES /

With a wealth of experience in supporting seismic surveys on the East and West Coasts of India since 2013, San Marine understands the critical nature and technical intricacies of seismic operations and equipment. San Marine is committed to providing customized & proven chase boats and supply/support vessels for an impenetrable shield around the Seismic Research Vessel and ensure debris-free and intruder-free safe perimeter.

**“Ensuring a safe and
Uninterrupted operation”**

Our young sea-going chase & support vessels sustain at survey field for long duration as they are tailor made with good fuel/ freshwater storage capacity and wide deck space to accommodate storage containers/ carry rum pons, buoys, debris from the survey field. Further, we take proper care to recruit experienced and energetic interpreters, simplifying interactions with fishermen and fishing boats in the area and perform socialization service to ensure that the fishing communities and local authorities cooperate and support the planned seismic surveys.

SHIP BUILDING SERVICES /

San Marine has earned its reputation as a reliable, efficient, and cost-effective shipbuilder and repairer, in the East Coast of India. Over the years, we have successfully delivered a wide range of utility vessels, tugs, barges, bunker vessels and cargo carriers to our esteemed clients.

Our Shipyard at Kakinada boasts a waterfront area of 20,000 Sq. M, capable of constructing vessels up to 80 meters in length and 20 meters in breadth, with a launching draft of 3.5 meters. We have the capacity to construct or repair up to eight vessels simultaneously. Our facilities are fully equipped to build vessels with a capacity of up to 8000 DWT.

**“A Heritage of
Shipbuilding Excellence”**

NAVAL LOGISTIC SUPPORT SERVICES /

San Marine recognizes the exacting demands of Naval Ships & Aircraft Carriers and is well-prepared to deliver robust and responsive logistics support to meet all their requirements. We take immense pride in providing our support services to various aircraft carriers and other Naval Ships visiting India. Our commitment is to offer “Right Support, Right on Time, Economically and Efficiently” We maintain an extensive inventory of assets that includes Barges, Crew/Liberty Boats, Breasting Pontoons, Water Supply Barges, Garbage/Sewage Collection Vessels and Crew Transport Boats, Gangways, Containers and Fenders.

**“Efficiency anchored
in every detail”**
